Does life make sense to you? Do you know why you are here? These are some questions that you may find the answer to within the pages of this book. During twenty-two sessions from August 2001 to March 2002, Rita asks questions of “The Guys Upstairs” via Frank. She was a PH.D. professor of psychology and her well designed questions result in thought provoking answers that will enable you to expand your perception of life and to think outside the box.

f you have ever wanted to talk to someone on the other side of the veil between physical and nonphysical existence, this is a book not to be missed. Enjoy the humour and the banter between Frank and The Guys Upstairs as both he and Rita probe the answers given, to seek even more clarification.

Rita spent four years directing The Monroe Institute’s laboratory, helping volunteers to achieve and explore altered states and Frank is an author, former journalist and editor of the Hampton Roads Publishing Co.
